

Product Catalogue

Beautifier LLC is a joint-venture USA based company co-founded and majority owned by Shenzhen Lantern Science Co., Ltd. (Chinese Stock Market Code: 831118) Strategically located at San Francisco, CA. Since 1993, we have found a growing need for cost-effective consumable products that don't skimp on quality. After much trial and error, we are proud to launch products that help people look and feel great.

As a leading Manufacturer with 29 years of history exposure in the US, China, Canada and worldwide, we have retained its passion in understanding customer's needs, knowing the target market, and providing sales and statistical advice within the industry. Our in-house laboratories provide the ability to improve your existing formulations, and further create additional formulations to meet not only your specific requirements in quality specifications, but in price point as well. With major production facilities all met with good manufacturing practices (GMP), ISO and FDA-registered, we are able to provide large quantities in short periods of time.

In our Household unit we manufacture paper ice-cream containers, injection moulded plastic products and folded cartons for the consumer market. We understand that packaging is about so much more than just what goes round a product. It's about building brands, protecting reputation, and opening up new opportunities in new markets. That's why we're on hand, manufacturing locally, working as long-term partners with you, our customer as you develop and grow. We are the industry experts in paper container manufacture, and our site can offer both paper and plastic packaging options to suit your requirements. We understand the advantages & also the limitations of these formats but importantly we have the scale, know-how and willingness to deliver to the highest quality.

Huhtamaki's Uni-Lid cups enable all four sizes, 285ml, 400ml, 475ml and 495ml to use the same UNI-LID.

This will decrease the number of items in your warehouse and help your customers to always find the right lid to the right cup.

In addition, our print quality is premium, near photographic result, so we can ensure your brand will be printed sharp and clear.

A match made in heaven. Your chips. Our cups.

Bioware

Bioware products offer you a simple way of contributing to a more sustainable environmental performance.

Still, the Bioware products offer you the same advantages as normal single-use products: they are safe to use, hygienic, no need for dishwashing and light to carry.

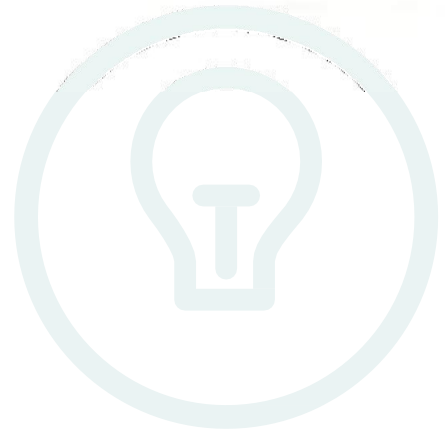

It's our world. Let's keep the future in mind – cooperatively and respectfully.

INDUSTRIAL COMPOSTING

All Bioware products are 100% compostable in industrial composting conditions. Under optimal conditions (approx. 60C, 95% humidity), they compost within 45-60 days. This makes them the perfect choice to meet the growing demands for sustainable and environmentally friendly packaging.

Bioware products are compostable and certified in accordance with EN 13432, the European standard for compostability of packaging. This means that Bioware products can be completely degraded at industrial composting plants.

FOREST FRIENDLY

All cup paperboard is PEFC certified meaning the paper is responsibly sourced from sustainably managed forest plantations.

RENEWABLE RESOURCES

PLA and bagasse products are sourced from renewable raw materials such as sugarcane pulp and cornstarch.

INDUSTRY EXPERTS

We understand the advantages & also the limitations of these formats but importantly we have the scale, know-how and willingness to address these.

Caring for the future

Folded Cartons

Your brand handled with care

We know how your brand is and in today's global market, it is critical to stand apart from the crowd. Huhtamaki brings industry-leading technology to the art and science of paperboard packaging. With decades of experience and knowledge in the consumer product industry, Huhtamaki can help you optimise your brand through our custom packaging solutions.

When you are looking for a box, thinking outside the box is what we do best.

RETAIL PACKS

Whether you are looking for an egg carton, a box to house your tea bags or a cereal box we can cater to all your retail requirements. On shelf first impressions count, let us make your vision a reality.

BOUTIQUE BOXES

Let us help you design and craft a box that will take your brand to the next level. From individual cupcake carry boxes to large chocolate trays and boxed confectionery, we can provide a solution for you.

SLEEVES

Sometimes all you need is a platform to **promote your product inside and this is where sleeves** are a great cost effective solution to **display your brand and product.**

WINDOWS AND DIE CUTTING

Specialty windows allow you to showcase the product inside and through the diecutting we can achieve any shape and size. These are key features which can be considered as a design element for you to incorporate

EMBELLISHMENTS

When you want something more than a photographic print, we offer foiling, embossing and spot UV. You can incorporate one or all three to accentuate design elements to take your brand to the next level.

APPLICATIONS

We work with your requirements and ensure all board is fit for purpose. We can offer packaging that is suitable for temperatures ranging from the freezer to the oven and also moisture resistant for the fridge.

YOUR BRAND HANDLED WITH CARE

Promote your company, brand or message in an innovative and cost effective way with custom printed cups. From a fluffy to a large latte cup and everything in between we have the solution for you.

We have over 20 years of packaging expertise. We can custom print your packaging which can give your business the competitive edge to succeed and help take your corporate image further. We offer a wide range of cups, plates and containers which can be overprinted with your name, logo or promotional message. The exceptionally high quality graphics which can be reproduced on the pack will ensure your branding is shown at its best.

Custom Printing is available on paper hot cups, paper cold cups and plastic cold cups.

Here are a few things to consider:

- Size of the cup
- Single or Double wall paper hotcup
- Clear or white plastic cold cup
